

NEPHU Hand Hygiene Poster Guide:

Childcare Outbreak and Colouring Competition Resources

The purpose of this guide is to outline the purpose and use of NEPHU’s childcare hand hygiene and disease posters. These posters are designed as A4 printing, in a mixture of portrait and landscape layouts. Posters can be printed in colour or black and white.

Hand hygiene

It is recommended to have each poster laminated as they would be placed in wet areas.

Childcare General Signage_ Hand Washing 260325

General basic hand washing poster with instructions to be placed in bathrooms/kitchen areas QR code leads to the Better Health Channel hand washing information.

Childcare General Signage_ Sanitiser Use 260325

To be placed at entrances/exits or next to hand sanitisers within childcare facility, to encourage using the hand sanitiser.

Outbreak management

When an outbreak has been identified, the posters should be placed at entrances/exits to inform visitors of current cases/outbreak. Directed at parents at childcare entrance/exit.

Once the outbreak has ended, the posters can be taken down. For gastro outbreaks, the posters can be removed once an official stand down has been received from your local council.

**Childcare Outbreak
Signage_ Gastro Notice
260325**

Staff to fill in the type of outbreak being experienced (connected to 3,4,5)

**Childcare Outbreak

CONGRATULATIONS!

You have finished your handwashing adventures!

You can show people your very special Hand Washing Licence.

Ask a grown up for help.

Part of NEPHU coloring competition sheets/can be used as regular colouring pages.

NEPHU hand washing “license” to encourage children to learn to wash hands as instructed. Can be given out like a pen license at schools. Adults to cut out if appropriate.

Activity book to be printed separately or collectively for childcare, healthcare facilities or anywhere applicable to help with hygiene education.
